

Vishakha Yadav

Senior Systems Engineer(React Native Developer)

Phone: +918408904267 | Portfolio: Portfolio | LinkedIn: LinkedInProfile

E-mail: vishakhayadav5000@gmail.com | Location: Andheri East, Mumbai, Maharashtra

Career Objective

React Native Developer with 4.5 years of experience building high-performance, secure mobile banking applications for Android and iOS. Proficient in React Native, TypeScript, JavaScript, Redux Toolkit, and RESTful APIs, with strong expertise in fintech system integration and scalable architecture. Experienced in mobile security practices such as SSL pinning, encryption, and device binding, along with enterprise core banking integration using Finacle. Skilled in implementing WCAG-compliant accessibility to deliver inclusive, user-centric mobile experiences.

Professional Experience

Associate Consultant

Alchemy Techsol India Pvt. Ltd. | March 2026 – Present

- Develop scalable and secure cross-platform mobile banking applications for Android and iOS using React Native and TypeScript, deputed to IBM for Union Bank of India mobile banking applications.
- Delivered 2–3 Change Requests (CRs) end-to-end, including solution design, impact analysis, development, testing, and production release.
- Developed and customized the Add/Edit Nominee flow, including UI implementation, validation logic, API integration, and alignment with banking business rules.
- Lead end-to-end accessibility implementation across production mobile applications, ensuring compliance with WCAG standards.
- Improve accessibility by enhancing screen reader support (Talkback, Voiceover), optimizing navigation flows, and implementing proper component labelling.
- Collaborate with designers, developers, and stakeholders to define and enforce accessibility standards and inclusive UI/UX practices.
- Integrate accessibility into the development lifecycle, improving usability, consistency, and scalability for diverse user groups.

Senior Systems Engineer

Infosys Limited | November 2023 – March 2026

- Develop secure, scalable React Native applications for Android and iOS using modular architecture, reusable components, TypeScript, and Redux.
- Translate Figma designs into high-quality, maintainable code using React Native, React Navigation, and modern frontend practices.
- Ensure mobile application security by implementing SSL pinning, secure storage, and device binding in compliance with enterprise banking standards.
- Integrate mobile applications with Finacle Core Banking systems and backend services, enabling real-time data synchronization and secure transactions.
- Design and implement RESTful APIs, microservices, and notification systems using Firebase Cloud Messaging (FCM), including token lifecycle management and database mapping.
- Implemented in-app provisioning and Wallet Extensions using Visa SDK for secure digital wallet integration.
- Optimize development and delivery by contributing to architecture discussions, code reviews, Agile processes, and improving CI/CD pipelines using GitHub Actions, CodePush, and Crashlytics.
- Prepare approach and solution design documents for Change Requests (CRs), including impact analysis, effort estimation, and implementation strategy aligned with business and

technical requirements.

Systems Engineer

Infosys Limited | September 2021 - October 2023

- Developed and enhanced features for Finacle Mobile Banking (MB) 11.2.x platform, delivering secure and scalable mobile banking solutions based on client requirements.
- Built and maintained Cordova-based hybrid mobile applications for Android and iOS using IBM Worklight (MobileFirst) framework.
- Integrated mobile applications with Finacle Core Banking System via secure APIs, enabling real-time data synchronization and transaction processing.
- Designed responsive front-end interfaces using HTML5, CSS3, JavaScript, AngularJS, JSON, and XML.
- Implemented mobile security best practices, including encryption, tokenization, and ProGuard/Dexguard-based code obfuscation and anti-tampering.
- Collaborated in Agile teams for development, testing, debugging, and deployment, ensuring high performance, reliability, and seamless user experience.

Skills

- Mobile Development: React Native, Android, iOS, Hybrid Apps, React Hooks, Context API, Redux, Redux Toolkit.
- Frontend: JavaScript (ES6+), TypeScript, HTML5, CSS3, AngularJS, React JS.
- Redux Toolkit: Efficient state management for complex applications.
- Backend & APIs: RESTful APIs, Microservices Architecture, Axios, JSON, XML, API Gateway Integration.
- Authentication & Security: SSL Pinning, Encryption, Tokenization, OAuth 2.0 (conceptual), Device Binding, Secure Storage, ProGuard, Secure Coding Practices.
- Notifications: Firebase Cloud Messaging (FCM), Push Notification Architecture, Token Lifecycle Management.
- Version Control: Git — for collaboration, branching, and source code management.
- Tools: Git, JIRA, Postman, Debugging Tools, Android Studio, Xcode, VS Code.
- Banking & Fintech: Finacle MB v11.x, Banking Channels, Digital Banking Solutions, Transaction Processing.
- Unit Testing & Accessibility: Strong focus on test-driven development and ensuring code reliability with accessibility.
- Linux: Competent in using Linux for development and deployment.
- Leadership & Communication: Proven leadership skills and effective communication abilities.

Certification and Achievements

- ES6 JavaScript
- Received the most prestigious award in the company.
- Received a Spot Award for going the extra mile in project delivery and team collaboration.

Educational Qualifications

Qualification	College/School	Marks
Bachelors in Electrical Engineering (2018-2021)	WSS College of Engineering, Pune	9.38 CGPA
Diploma in Electrical Engineering (2015-2018)	Government Polytechnic, Karad	88.38 %
